ABOUT MEDINA

PT Meta Daya Indonesia (Medina Energy) is a professional industrial procurement company based in Indonesia, specialized **in spare parts, equipment, and technical supply solutions** for the energy, oil & gas, and heavy industry sectors.

We serve as your **strategic partner** to ensure **fast, accurate, and transparent supply chain operations** — minimizing downtime, reducing procurement risks, and guaranteeing the quality of every delivered component.

At Medina, we believe that **efficiency, reliability, and trust** are the foundation of every successful operation.

OUR COMMITMENT

We exist to **make your operations smoother.**

Medina is not just a vendor — we are your **dedicated supply partner** who understands the urgency, standards, and complexities of industrial projects.

We commit to:

- Delivering **OEM-quality products** and verified equivalents.
- Ensuring **on-time delivery** with precise documentation.
- Maintaining **total transparency** in every quotation and transaction.
- Providing **technical matching support** to guarantee compatibility.
- Building **long-term partnerships** based on reliability and trust.

MAIN OFFERINGS

A. Industrial Spare Parts & Equipment Supply

Mechanical, Electrical, Instrumentation, Control Systems, and Safety Equipment for:

- Power Plants (PLTU, PLTA, PLTG, PLTS, etc.)
- Oil & Gas Facilities
- Mining & Petrochemical Plants
- Industrial Manufacturing
- Drilling Company

B. Procurement Solutions

Integrated sourcing services with:

- Vendor prequalification & verification
- Global sourcing network
- Multi-currency procurement & import handling
- Logistics & documentation management

C. Equipment Replacement & Leasing Program

For clients requiring **temporary or emergency replacement** of key assets (motors, pumps, turbines, compressors, and control modules).

Value Proposition: Fast delivery,
Competitive price, Trusted
vendor network.

INDUSTRIES WE SERVE

- Power Generation (Conventional & Renewable)
- Oil & Gas
- EPC & O&M Companies
- Mining & Petrochemical Industries
- Industrial Manufacturing & Utilities
- Drilling Company

OUR PROCESS

Inquiry → Verification → Quotation → Confirmation → Delivery → After-Sales Support

Every project is handled by a **dedicated account manager** and **technical verification team**, ensuring your procurement is efficient, traceable, and compliant with ISO standards.

WHY CLIENTS CHOOSE MEDINA

<u>Key Advantage</u>	<u>Description</u>
Speed & Precision	Fast quotation, verified sourcing, and reliable delivery timelines.
Trusted Vendor Ecosystem	Network of global OEMs and authorized distributors.
Total Transparency	No hidden cost, complete documentation, and open communication.
Technical Assurance	Each component cross-checked for compatibility and specification accuracy.
Sustainability Focus	Committed to responsible sourcing and energy-efficient solutions.

GREEN SUPPLY & ESG COMMITMENT

Medina integrates sustainability principles into all business operations:

- **Green Supply Initiative:** Prioritizing certified materials and promoting re-engineered components to extend part lifecycle.
- **Carbon Efficiency:** Reduction of logistics emissions through regional fulfillment centers and optimized shipping routes.
- **Governance Transparency:** Implementation of the Trusted Procurement Ledger to ensure every transaction is traceable and auditable.
- **Local Empowerment:** Collaboration with certified local workshops and SME suppliers to strengthen Indonesia's industrial base.

Through these initiatives, Medina supports the national transition toward a resilient and sustainable energy ecosystem.

QUALITY & COMPLIANCE

- All products are sourced only from **verified OEMs / authorized channels.**
- Medina adheres to **ISO 9001:2015 quality management standards.**
- Full documentation: CoC, CoO, test certificates, and data sheets available for every order.
- Optional digital **tracking system for shipment** monitoring and status transparency.

PORTFOLIO

PARTNERSHIP PHILOSOPHY

We view every client as a **long-term strategic ally**, not a one-time buyer. Our goal is to **empower your operation** — ensuring equipment reliability, cost efficiency, and supply continuity.

“When your operation runs seamlessly, we have succeeded.”
